SECTION F - AWARDS & ACTIVITIES

Awards

Area of Award	Year of Award	Details of Award
Academic & Professional	2018	Finalists (2000+ contestants) in Asia's Largest Enterprise Blockchain challenge hosted by NASSCOM.
Academic & Professional	2017	Gold Medal for scoring more than 80% in degree.
Academic & Professional	2016	Robert Friel Memorial Prize - Awarded annually to best 3rd year computer science student at Trinity.
Academic & Professional	2015	Finalists at Deloitte Top Technology pitching event geared towards nurturing student start-ups.
Sports	2017	Runner Ups in GE Digital Football tournament.

Extra-curricular participation & activities

Name of Activity	From	To	Level of participation	Designation held
Badminton Society	Jan 2016	Feb 2017	University	Organizer
Travelling - International Student Society	Sep 2015	Jul 2016	University	Member
TES Dragon's Den	Feb 2016	Feb 2016	University	Team Leader

pitching event				
OWASP Thapar Chapter Computer Society	Oct 2014	Jul 2015	University	Technical Team Leader
Social Service for Paryavaran Society	Sep 2013	May 2015	University	Volunteer

Hobbies

1. Playing badminton - Doubles and going to the gym.
2. Reading about the war conflicts and war stories specifically the ones in which India was involved.
3. Studying car comparisons, supercars, hypercars and famous rivalries in the automotive industry.

SECTION G - ESSAYS

Essay 1

At ISB we value diversity as it enhances both the in-class and out of class learning experience. Tell us how would you contribute to the same?

My path hitherto has led me on a self-transformation journey - from a meek and introverted school student in the dusty lanes of Ludhiana, to a confident and inquisitive person in university at the picturesque coast of Ireland.

The answer to my contribution to the diversity at ISB lies in my two-year stint at studying abroad, which was a dream I had diligently pursued. In a foreign land, out of my comfort zone, 'learning' was my main motivation, be it from academia or through my interactions with people from varied nationalities. I vividly recall the day at Trinity College, when merely a couple of weeks in, I gathered the courage to pitch my idea about a 'college event consolidator' app, and it was amongst the top two shortlisted ones. As I donned numerous hats during the course of app development, including that of an interviewer, I ended up shortlisting members of myriad nationalities for my team, including Indians, Chinese and Europeans. This was followed by brainstorming sessions, as I lead the team and facilitated the entire process from setting targets and expectations to achieving them. It played a major factor in helping me glean the subtle nuances of team-work and gain insights into conflict resolution, leadership and time management. Our perseverance resulted in successful completion of the project, podium finishes in various pitching events and collaboration with Student Union candidate for official rollout as a part of election agenda.

Transitioning from campus to corporate, I am now responsible for developing solutions to complex problems using digital algorithms and architectures, such as computing optimal power plant generation schedules for GE Power which bagged a \$200,000 funding. Furthermore, I have been leading the blockchain initiative at GE's Bengaluru Hub by delivering sessions and helping GE Finance by setting up blockchain for them.

In accordance with this experience, I have my eyes set on joining the Business Technology Club where I would like to host knowledge sessions on blockchain and other cutting-edge technologies. As a part of the Energy Club, I would like to host a series of speaker sessions focussing on digital transformation in energy sector leveraging my contacts from the industry.

Thus at ISB, I will bring to the table not only my experience of working with people from differing nationalities, my academic accolades, and the interesting projects I have worked on, but also my leadership, time management and problem-solving skill-set.

Essay 2

Enrolling in a Business School is an important career decision. Critically look at your career to date, the choices you have made, the key influences behind those choices, your goals for the future and how do you think ISB's PGP can help you in achieving your goals?

My fascination with computers and cars led me to choose engineering. My stellar academic performance at Thapar University gave me a chance to pursue a fully-funded degree at Trinity.

After graduation, my inclination towards solving core engineering problems using software made me opt GE India over foreign offers. Although unusual for a fresher, I got to interact with senior executives from sales, marketing and engineering and got a platform to pitch ideas to CIOs which increased my proclivity towards business aspect of projects.

Working closely with a team of senior leaders to revive steam power-plant business in the wake of renewables, I witnessed how holistic solutions are tailored. I realized I wanted to become a program manager so that I could innovate programs in companies going through digital transformation. Rising to this position requires deep understanding of business like current inefficiencies, information gaps, product placement and revenue projections.

ISB's PGP aligns exactly with this goal. The innovative and flexible nature of the course and subjects like Strategic Analysis of IT and Digital Innovation Strategies would equip me with the right tools to foray into IT management and spearhead digital transformation. ELP would help me to apply my learning to business issues with immediate relevance and the diverse potpourri in terms of industry, nationality and experience would broaden my knowledge of real world dynamics.

After I gain substantial experience innovating digital programs, I will advance to the field of entrepreneurship, utilising blockchain and machine-learning for asset lifecycle management. At the helm of my venture, ISB will provide me a distinct advantage to tap into its extensive alumni network, especially for counsel.

I eagerly look forward to leveraging ISB's learning, unique locale and elite name. From where I stand, I firmly believe that ISB would act as the bridge and accelerate my journey towards my objectives.

SECTION J- DECLARATION

Have you ever been suspended, dismissed or put on academic probation/warning in your school or college? No

If Yes, please explain (Maximum of 200 characters) _____

Have you been convicted of any crime(s) of violence, dishonesty, or any crime(s) against properties involving the threat of violence? No

(Affirmative responses to these questions do not automatically disqualify you from admission)

If Yes, please explain(Maximum of 200 characters) _____

Have you been charged/convicted of any Disciplinary Crime at work place? No

If Yes, please explain(Maximum of 200 characters) _____

Additional Information

Are you a person with disability? No

If Yes, please elaborate(Maximum of 200 characters) _____

Did any of your family member/s go through the ISB PGP? No

If Yes, please specify the name and relationship _____

Statement of Application Integrity

I have read all the Guidelines / Instructions / Terms and Conditions provided as a part of the PGP Application. I also certify that the information provided by me in this application is accurate and complete

in all respects. I authorize all persons or entities to provide any relevant information in their possession to the Indian School of Business in considering me for admission or verifying my credentials for admission, and I expressly waive any required notice to me. I understand and agree that any misrepresentation or omission of facts in my application will justify the denial of admission, the cancellation of admission, or expulsion. This application is my honest statement to the Admission Committee.

I also authorize the ISB or its representative to carry out any kind of verification of academic or employment details given in my application.

(Signature)

You may provide us with a scanned signature as part of the Statement of Integrity for now. You will be required to sign personally, when you register for the programme enrolment.
